Wireframes

- IT19000886 – Hariscumar. S

The image displays three mobile app wireframes for a platform named 'Riyapola'.

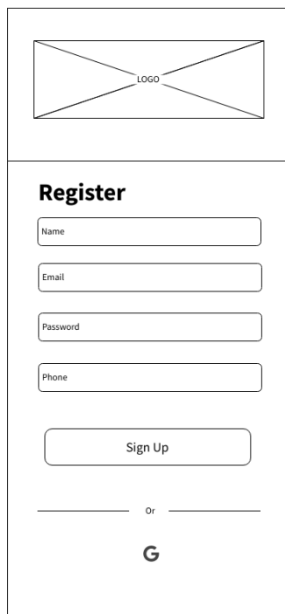

- Business & Services:** This screen features a search bar, a category filter, and a list of service cards. Each card includes a placeholder image, the text 'Price Service', and a '+' icon at the bottom right.
- Add Business & Services:** This is a form for adding new services. It includes fields for Title, category, Ratings, Description, and Price. There is a 'Choose File' button with the text 'No File Chosen' and a 'Submit' button at the bottom.
- Service Detail View:** This screen shows details for a selected service. It includes a large placeholder image, fields for Name and Price, a Description area with placeholder text, a heart icon for favorites, and a 'Contact Seller' button.

- IT19181820 – Akash Y.A.K

The image displays six mobile app wireframes for an application named "Riyapola".

- Home Screen:** Features a header with a menu icon and the app name. Below is a "Location" dropdown and a "Search" bar. A "Select Category" section includes icons for Service, Properties, Electronic, and Vehicle. The main content area shows a grid of property cards, each with a placeholder image, a price range, and a property name.
- Properties Screen:** Similar to the Home screen, it includes a search bar, category and district filters, and a list of property cards. A floating action button (+) is located at the bottom right.
- Property Detail Screen:** Shows a large placeholder image for the property. Below the image are fields for Name, Price, and Description. At the bottom, there is a heart icon for favorites and a "Contact Seller" button.
- Login Screen:** Features a large placeholder image at the top. Below it is a "Login" section with input fields for Email and Password, a "forgot password?" link, a "Sign In" button, and an "Or" separator with a Google logo.
- Add Properties Screen:** Includes a header with the app name and a title "Add Properties". It contains several input fields: Title, Advertisement Type (dropdown), Property Category (dropdown), Size of the land (perch, acres), Description, and Total Price. There is a "Choose File" button with a "No File Chosen" status and a "Submit" button at the bottom.
- Wish List Screen:** Features a header with the app name and a "Wish List" section. It includes a search bar and a list of property cards. Each card shows a placeholder image, Name, Price, and a button with a trash icon and a right arrow.

User feedback for prototype

- Interview Script

Client – Mr. Udara

Good evening Mr. Udara. I am Kaveen Akash. I want to do small research on Riyapola mobile application. So, I am going to conduct a small interview about your user experience about us rebuild mobile application.

We are planning to run flow of the UI prototype with our new designs. I expect your opinions on UIs.

While we run our prototype, if there are any suggestions, further improvements and if you use that app is there any confusing parts or any other clarification, you can share those with us.

Before starting if there are any doubt, please feel free to ask.

Shall we begin?

Interviewer - This is the home page. In our application there are main 4 categories. First, I am moving with property category. In property category there are some available properties display like this. If you want to see more details about that property

you can click on this picture. Then it will move to this page

Udara - Excuse me that back button is too small. We can't click on it. I think it will be large, little bit, it is more efficient

Interviewer - Thank you very much Mr. Udara. I noted down. If you have any more, please let us know. Then we click on this plus mark it will move to add new advertisement page. In that field there are some spaces which sellers must be fill.

Udara - That description box is now enough for type the description about that vehicle. It must be large. And also, in that field if there are any default value, user can easily understand what they should enter

Interviewer - I noted down Udara. This is our about us page.

Udara - That page is not very attractive. If you can create it more attractive, I think it is good

Interviewer - Mr. Udara are there any suggestions or clarifications?

Udara - no.

Interviewer - We have noted down your responses. Thank you for joining Udara. Take care We have noted down your responses. Thank you for joining Udara. Take care

Client – Mrs. Perera

Good evening Mrs. Perera. I am Lumini Nanayakkara. I want to do small research on Riyapola mobile application. So, I am going to conduct a small interview about your user experience about us rebuild mobile application.

We are planning to run flow of the UI prototype with our new designs. I expect your opinions on UIs.

Before starting if there are any doubt, please feel free to ask. Shall we begin?

While I am running our prototype, if there are any suggestions, further improvements and if you use that app Is there any confusing parts or any other clarification, you can share those with us.

Shall we begin Mrs. Perera?

Interviewer - This is our contact us page. If user wants to contact us, they can fill these fields and send it.

Mrs. Perera - In contact us page I think it must add your email address and the phone number.

Interviewer - okay Mrs. Perera. This is the user profile user can see their profile by clicking on that page.

Mrs. Perera - I think in there we can have an option to edit the profile picture it is more efficient, and this delete button will be in red color user can easily see it.

Interviewer - By clicking on this Wishlist page it will redirected to Wishlist page. We can see all the Wishlist

Mrs. Perera - I think that delete button will be in red color it is more efficient

Interviewer - Okay Mrs. Perera are there any suggestions?

Mrs. Perera - No. Other things are okay.

Interviewer - We have noted down your responses. Thank you for joining Mrs. Perera. Take care
